WORKSHOP ON

3 AUTODESK® 3DS MAX®

3ds MAX is one of the most powerful designing software that provides comprehensive 3D modeling, rendering, animation, and composing solutions for different industries. The software was developed by Autodesk Media and Entertainment. The application is rich in modeling capabilities, has a flexible plugin architecture and can be used on Microsoft Windows Platform.

Course Objectives: The course Max for Engineers/Architects will help students and professionals to learn and master 3ds MAX software tool. The candidates will also learn the basics of 3D modeling and texturing along with 3D rendering. The powerful course will increase the productivity and performance of the individual. Overall, the course will help the students master the software and enhance their productivity.

GROUP ACTIVITIES SMART TECHNOLOGY INTRODUCTION

Objectives

- Understand the concepts of design thinking approaches
- Apply both critical thinking and design thinking in parallel to solve problems
- Apply design thinking concepts in real-time problems

Agenda

- Finding the Right Problem to Solve
- Design Thinking Overview
- 5 Stages in Design Thinking
- Empathy – Empathy Canvas Activity
- Define
- Ideation – Ideation Canvas Activity
- Prototyping – High Fidelity & Low Fidelity
- Prototype Building
 - Testing
 - Team Presentations

ELIGIBILITY

ALL FACULTIES FROM AFFILIATED COLLEGES

REGISTRATION FEE : RS 500

REPORTING TIME: 9 00 AM

AICTE- IDEA Labs promoting new-age learning.

To provide a platform to experiment with ideas for qualitative change in the life of compatriots.

To create a vibrant mentor network for enhancing the capabilities of young minds.

IDEA Lab will provide all facilities under one roof, for conversion of an idea into a prototype. The idea need not be always be new (which will always be encouraged) but the emphasis would be on graduating engineers working with their hands using equipment, tools and consumables . With these facilities available 24x7 in the campus, more students and faculty will be encouraged to take up creative work and in the process, get training on creative thinking, problem solving, collaboration etc

ABOUT COLLEGE

Rajadhani Institute of Engineering and Technology (RIET) is an engineering institute of repute established by Rajadhani Group of Institutions under the aegis of Indira Charitable Trust which is offering wide range of business and societal activities in the domains of Higher Education, Hospitality, Construction, Tourism and Information Technology.

RIET is affiliated with the APJ Abdul Kalam Technological University in Thiruvananthapuram and holds approval from the All-India Council for Technical Education (AICTE), New Delhi. The college has received accreditation from NAAC and offers NBA-accredited programs.

RIET-AICTE IDEA LAB

AICTE-IDEA Lab is an AICTE funded training lab, dedicated to promoting innovative learning strategies

- The platform aims to facilitate experimentation with new ideas that can bring about qualitative change in the lives of individuals.
- Additionally, the creation of a dynamic mentor network will help enhance the abilities of Faculty minds.

IDEA Lab aims to provide an all-inclusive workspace for converting ideas into functional prototypes. While novel ideas will always be encouraged, the focus is on enabling engineers to work with their hands using specialized equipment, tools, and consumables. This facility will be accessible round-the-clock, encouraging students and faculty to engage in creative work and acquire training on problem-solving, creative thinking, collaboration, and other essential skills.
